

MEDIA RELEASE March 30, 2017
LWDHF TRANSFERS OVER \$600,000 TO YOUR HOSPITAL

Your Lake of the Woods District Hospital Foundation is pleased to announce that thanks to the overwhelming support received from your community of both local and seasonal residents, they have transferred over \$600,000 to your hospital for important medical equipment. Community donors, partners and volunteers have ensured that quality medical care remains available at your hospital. When you need your hospital, your hospital will have what it needs to take care of you.

Healthcare areas that your support impacted include Emergency, Maternity, Mental Health, Operating Room, Rehabilitation, Laboratory, Palliative Care, ICU, Dialysis, and patient care areas on 2nd, 3rd and 4th floors.

Without the support of your community, none of this would be possible. Our loyal donors allow us to work with your hospital to ensure that they have the funds needed to replace aging medical equipment and introduce new medical technology to Kenora. With every donation, you choose to save a life; you choose to make a difference and you have! Thank you!

The needs of your hospital are ongoing and we need your continued support. Watch for ways for you to be a part of ensuring quality medical care remains available in Kenora. This year, we are not only raising funds for a new CT Scan, many other patient care areas have identified vital medical equipment needs. With your help, we can have another successful year of funds raised and medical equipment purchased for your hospital.

For a list of equipment purchases, visit www.lwdhf.com
